

DAWN Participating Scientist Program

Goal: *Maximize Dawn scientific return by drawing on the broadest expertise of our research communities throughout period spanned by the mission.*

Should address the facts that over the course of the mission

- (1) DAWN mission extends over a decade
- (2) the knowledge base providing the context within which observations will be interpreted will evolve
- (3) new researchers will be entering the field bringing fresh ideas and perspectives
- (4) some researchers will have small, but important, contributions to make, while others may make more sustained contributions
